

How do I start saving money on a low income?

STEP
01

Create a budget.

A budget should essentially serve as a roadmap of your monthly income and expenditures

This will make it easier to recognize spending patterns that may be hindering your ability to save.

STEP
02

Cut your spending.

Cutting back on spending may seem like an uphill task, but with the right tips and strategies, it can be as simple as pie.

Making conscious decisions about what goes into your shopping cart can be incredibly empowering.

STEP
03

Find ways to save.

Finding ways to save money when on a low income might feel like a herculean task. You're not alone. Many people feel overwhelmed by finances and struggle to save money.

No matter how much you earn, there are always strategies for saving money on a low income.
